

MUNNA SHAHEEM P

COMPUTER SCIENCE ENGINEERING STUDENT

linkedin.com/munnashaheemp | munnashaheemperinchikkal@gmail.com

github.com/munnashaheem96 | +91 9633962953 | Malappuram, Kerala, India

PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in Flutter application development and strong knowledge of Java, SQL, Object-Oriented Programming, and software development concepts. Experienced in building real-world applications with Firebase, API integration, authentication systems, and responsive UI design. Passionate about software engineering, problem solving, and learning modern technologies.

TECHNICAL SKILLS

Programming Languages: Java, Python, Dart, C, C++, JavaScript, SQL

Frameworks & Technologies: Flutter, React, Firebase, HTML5, CSS3

Backend & Development Tools: REST API Integration, Firebase Authentication, Cloud Firestore, Git, GitHub

Design & Productivity Tools: Figma, Canva, Adobe Photoshop, Microsoft Office

Core Concepts: Object-Oriented Programming, Responsive UI Design, State Management (Basic), Data Structures and Problem Solving

EDUCATION

B.E. Computer Science and Engineering | 2023–2027 (Pursuing)

Sri Shanmugha College of Engineering and Technology, Salem, Tamil Nadu

Secondary Education | 2021 - 2023

Abdurahiman Nagar Higher Secondary School Chendappuraya, Malappuram, Kerala

SSLC Education | 2020-21

Abdurahiman Nagar Higher Secondary School Chendappuraya, Malappuram, Kerala

EXPERIENCE

App Development Intern | APM Alpha Pixel Media, Salem

Jan 2026 – Mar 2026

- Developed and optimized responsive Flutter UI components to enhance application performance and user experience.
- Built reusable widgets and structured frontend components to improve code maintainability and development efficiency.

Project Intern | IN22 Labs, Chennai

Jan 2025 – Feb 2025

- Worked on design and multimedia-related activities while contributing to frontend visual elements and user interface improvements.
- Assisted in enhancing application layouts and maintaining consistency in user interface design standards across different screens.
- Gained practical exposure to Flutter application development, collaborative workflows, and modern software development practices.

PROJECTS

Integrated Emergency Response System for Blood Donation & Pharmacy Availability

github.com/munnashaheem96/rapid-aid-blood

Flutter, Firebase, Node.js

- Developed a location-based emergency platform connecting users with nearby blood donors and pharmacies.
- Integrated Firebase services for real-time data management, ensuring efficient retrieval and seamless updates of user information.
- Designed a user-friendly and responsive mobile interface focused on accessibility and quick navigation during emergency scenarios.

College Outpass Management App

github.com/munnashaheem96/sscet-outpass-app

Flutter, Firebase

- Developed a digital outpass management system to streamline student request and approval processes while reducing manual administrative effort.
- Managed request workflows and backend operations using Firebase services to ensure efficient and reliable data handling.

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Cloud Computing Certification
- HackerRank – Java Programming Certification
- HackerRank – CSS (Basic) Skill Certification
- HackerRank – JavaScript (Basic) Skill Certification
- HackerRank – Python (Basic) Certification
- Udemy – Flutter & Dart: The Complete Guide [2024 Edition]

STRENGTHS

• Problem Solving • Team Collaboration • Fast Learner • Mobile App Development • UI/UX Focus • Adaptability

LANGUAGES

• English (Fluent) • Malayalam (Native) • Tamil (Conversational) • Hindi & Arabic (Reading/Writing)
